

Alternative route due to fire risk

During heatwaves or periods of drought, prefectural orders may be issued to temporarily prohibit public access to forest areas. On the La Vélobuissonnière route, the greenways between La Suze-sur-Sarthe, La Flèche, Baugé-en-Anjou and Brion are particularly affected. Should access to certain sections of the greenway be prohibited, you will find the diversion routes to follow below. GPX tracks are also available for download. Thank you for your understanding.

La Flèche-Brion greenway :

- = La Vélobuissonnière
- = Alternative route due to fire risk
